FIELDS OF EXPERIENCE

WordPress Development

The Unicorn Queen (Cuttack)

Sep 2018 - Present

An active blogging website based on Wordpress and hosted on Go Daddy which I have set-up and I continue to maintain for a client. I have built the website (www.theunicornqueen.com) using Wordpress, hosted it and also manage the domain name for the same. This website is for a client who is a blogger by profession. I tutor her on using and developing the website.

Writing Technical Books

Publishing (LectureNotes, etc.)

Oct 2018 - Present

Books on compiler design, C, Java and Basic Algorithms are in the pipeline.

Campus Ambassador

Internshala (Virtual)

Sept 2017 - Present

As an Internshala Student Partner, I strive to highlight the various facilities provided by Internshala among my peers, juniors, and seniors. This is a position of responsibility and requires out of the box thinking.

Tutoring

Self-employed (Bhubaneswar)

Aug 2016 - Present

I tutor my classmates, juniors, and some seniors on the concepts of C programming, Core Java, C++, OOPS paradigm, PHP, CSS, HTML5, Data Structure and Algorithms.

Writing

Freelancer (Virtual)

May 2015 - Present

Writing myriad range of articles, stories, essays, blogs, webpage contents, notices, novels and poems.

INTERNSHIPS

Social Media Marketing Automation

SmatSocial (Bangalore)

Aug 2017 - Oct 2017

Description: Learned social media influence and content creation along with automation of posts at SmatSocial

Educator

Unacademy (Virtual)

Jul 2017 - Present

Description: Teaching the basics of C and Java programming as an educator on Unacademy.

Developer

Ministry of Railways (Rail Sadan, Bhubaneswar)

Jun 2019 - July 2019

Description: Assisted in the development of online application feature on their website.

Content Writer

Sellulose (Virtual)

Jun 2017 - Sep 2017

Description: Worked in sales automation and associated technologies.

POSITIONS OF RESPONSIBILITY

Core Team Member and Organizer of Meta-Academics Cell of Silicon Institute of Technology.

Editor of Slate Magazine at Silicon Institute of Technology, Bhubaneswar.

Vice-Captain of School during senior years at St. James' Convent School.

TRAININGS

Data Science

DataCamp (Online)

Feb 2018 - Aug 2018

I have learnt the basic concepts and implementations of Data Science and Machine Learning

PHP With Wordpress

HP (Bhubaneswar)

May 2017 - Jun 2017

I have undergone a summer training on PHP with Wordpress by HP Educational Programme, India at the state nodal center. I had worked on a complete website development project from scratch. I am certified for the same by HP.

Android

IEEE (Bhubaneswar)

Jan 2017 - Jan 2017

Trained and proficient in android app development and mobile technology.

PROJECTS

Exam Nation

Sep 2018 - Nov 2018

It is a Java based dynamic web project which uses Java EE as its backend supported by Tomcat and MariaDB. For the front end, it relies on PUG, a form of HTML5, SCSS, CSS3 and JavaScript. And it makes use of concepts like MVC, DAO and Hibernate.

Document Classification

Jan 2018 - Apr 2018

The project aimed at classifying news articles into relevant categories based in the 20 newsgroups dataset. NLTK package was used in this NLP project with a staggering accuracy of 98%.

Learn Center Webpage Template

May 2017 - Jun 2017

<https://drive.google.com/open?id=0B3xwoCwqyx6mYnpLbIV0NHIEY2s> Learn Center was developed as a template website for coaching institutions at the end of my training on PHP with Wordpress. The project was developed incorporating all the minute aspects of HTML5, PHP, CSS, JavaScript. A local database is used.
